OBJECTIVE

Computer Engineering graduate seeking an entry-level IT position where I can apply my knowledge of computer systems, hardware and software troubleshooting, programming, and networking. Eager to gain hands-on experience, learn new technologies, and contribute to the organization through problem-solving, adaptability, and continuous learning.

EDUCATION

University of Batangas Lipa City

2022-2026

Bachelor of Science in Computer Engineering
Graduated with Latin Honors (Cum Laude)

SKILLS

- **Programming:** Python, Java, PHP, JavaScript, HTML, CSS
- **Databases:** MySQL, SQL
- **Data Analytics:** Data Analysis, Data Visualization, Dashboard Development, Report Generation
- **Embedded Systems:** Arduino, ESP32
- **AI:** Prompt Engineering, ChatGPT, Gemini, Claude, Deepseek
- **Development Tools:** Git, Github, Visual Studio Code, Arduino IDE
- **Professional Skills:** Problem Solving, Critical Thinking, Teamwork, Leadership, Time Management, Adaptability

PROJECTS

InCOWgnito - An AI-Based Cow Recognition and Digital Ownership Registry for Secure Livestock Management (2026)

- Developed and evaluated an AI-powered OCR solution for livestock ownership verification.
- Integrated OCR technology into a digital livestock registry for automated document processing.
- Validated OCR results to improve document accuracy.

NYC Intel: Geospatial Data Analysis and Tactical Dashboard System (2026)

- Developed an interactive dashboard for NYC collision data analysis.
- Created dynamic charts and filtering tools for data visualization.
- Generated real-time reporting and analytics features.

Intelligent Navigation Robot with Multi-Sensor Integration (2025)

- Developed an Arduino-based autonomous navigation robot.
- Integrated ultrasonic sensors for obstacle detection and avoidance.

EXPERIENCE

Procurement and Supply Institute of Asia (Intern)

- Cleaned, organized, and analyzed datasets to ensure data accuracy and consistency.
- Developed reports and dashboards to support data-driven decision-making.
- Performed data validation and generated insights.
- Assisted in maintaining databases and preparing analytical reports.
- Collaborated with team members to improve data processing workflows.

TRAININGS AND SEMINARS ATTENDED

- **IEEE Open Silicon TinyTapeout Philippine IC Design Bootcamp** April 2026
IEEE Industrial Electronics and Photonics Philippine Joint Chapter
 - **Conversational Cybersecurity: Enhancing Wazuh Siem and XDR with Generative AI Agent** April 2025
ICpEP FreeWebinar
 - **Designing Intelligence: UX in AI and Machine Learning** May 2025
University of Batangas and UXPH
 - **Artificial Intelligence and Cybersecurity: Innovations and Implications** November 2025
Batangas AI and Cybersecurity Congress 2025
 - **AI and Prompt Engineering in Educational Settings** December 2025
Institute of Computer Engineers of the Philippines - Singapore
 - **Practical Application of Cybersecurity Framework** December 2024
Institute of Computer Engineers (ICpEP), Inc - Qatar Chapter
 - **CAMPUS DEVCON - Tech Nexus** December 2024
Campus Devcon Summit 2024
-
